

BUENHYTTER

2018

BUENHYTTER

Vi produserer hytter, hus, garasjer og andre småhus som er annerledes og har en form og stil som harmonerer med norsk natur.

I løpet av 40 år har vi funnet vårt særpreg ved å kombinere ennå levende håndverkstradisjoner og ferdigheter fra bygde-Norge med moderne teknologi og byggekunst. Her deler datamaskiner og treskjærere jobben, bokstavlig talt.

Konstruksjoner og dimensjoneringer er bunnsolide og det brukes kun norskproduserte materialer og byggevarer. All treskjæring er håndarbeid.

Hyttene leveres i et velutviklet precutsystem og det lages lettfattelige byggebeskrivelser og arbeidstegninger, slik at det er mulig å bidra med stor grad av egeninnsats i oppføringen.

I denne brosjyren finnes det en del standardmodeller. Disse leveres sjelden eksakt slik de er i brosjyren, men tilpasses byggeplass, behov og ambisjonsnivå hos den enkelte kunde.

I mange tilfelle starter vi med blanke ark og tegner helt nye modeller i samarbeid med kunde.

Dette gjøres på kort tid og medfører ikke store ekstrakostnader utover det som følger av økt materialforbruk.

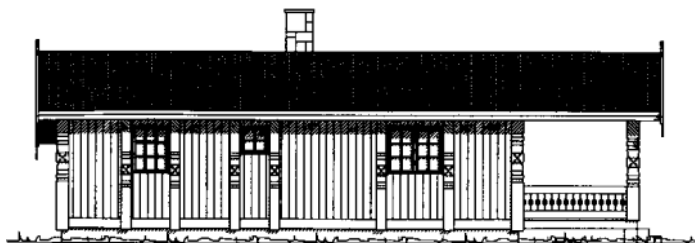

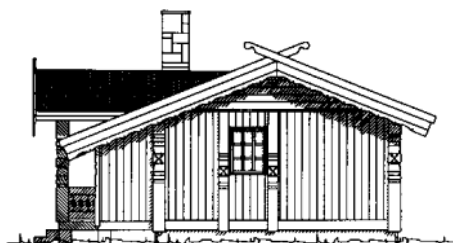

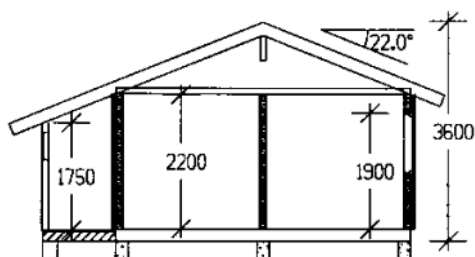

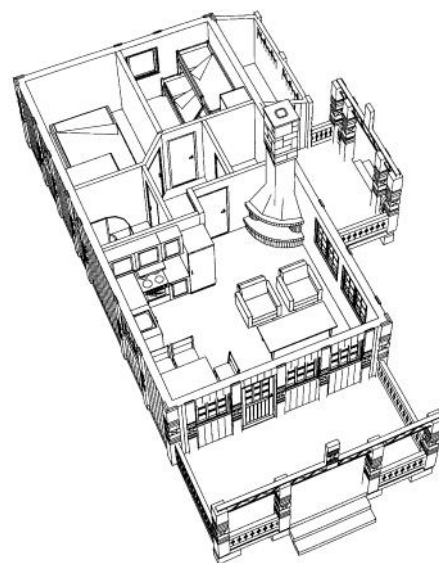

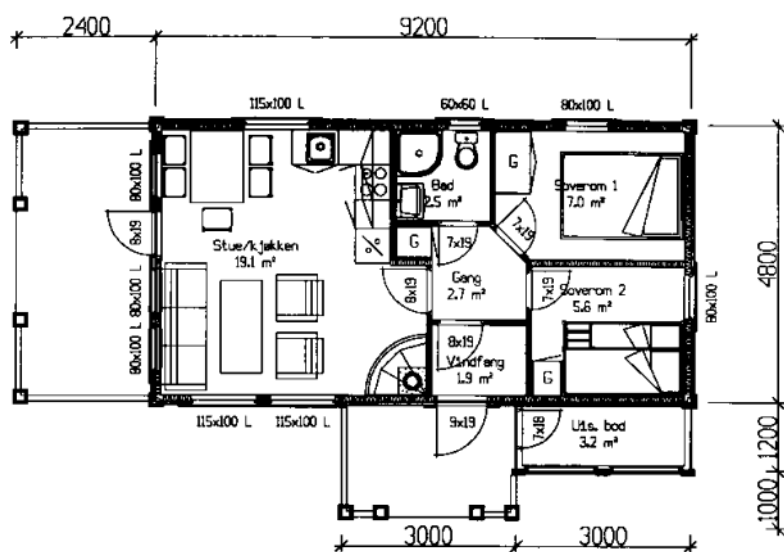

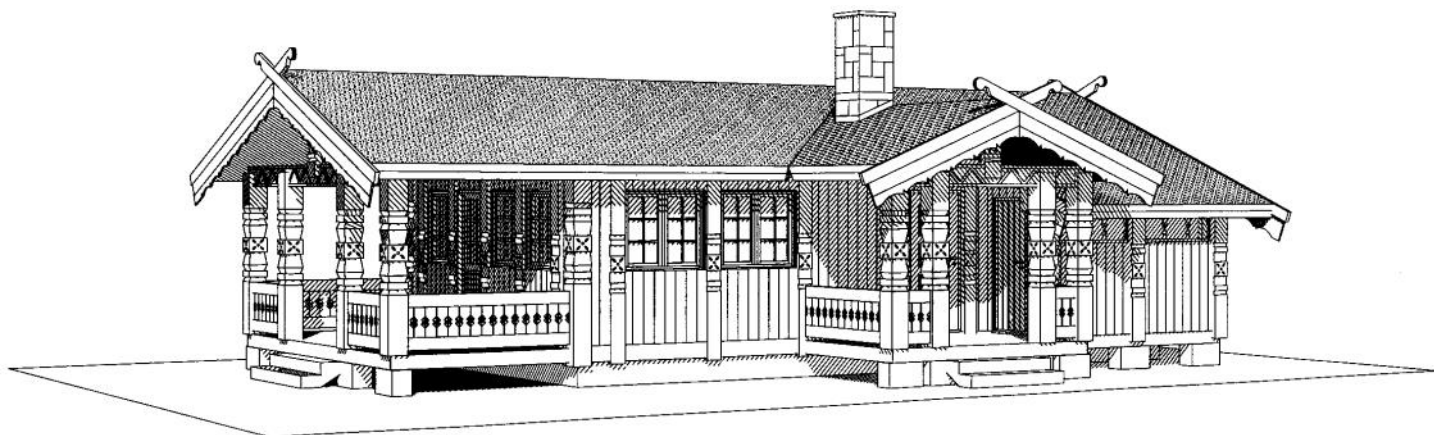

Denne brosjyren dekker modeller med bruksareal opp til ca 120 m² og i arkivet har vi mange varianter av de fleste modellene.

Om du ser etter enda større hytter har vi en egen brosjyre for dette med navn "Spesialtegnede hytter".

"Hersjø" fra Buen Nøytral:

Ta en titt i brosjyren **Buen Nøytral** om dere ønsker å se eksempler på hvordan hyttene våre tar seg ut i en annen design enn den Buenhyttene er mest kjent for.

Kundene står alltid fritt til å velge hvor mye utskjæringer de vil ha på hyttene, og dernest om de vil ha profilerte deler eller ikke.

Av og til leverer vi hytter med litt mindre utskjæringer.

Av og til helt uten, men med profilerte deler.

Og av og til helt nøytrale hytter med kun flate deler.

Priser på hyttene i ulike design fås ved forespørsel.

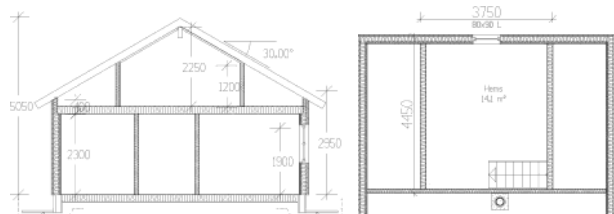

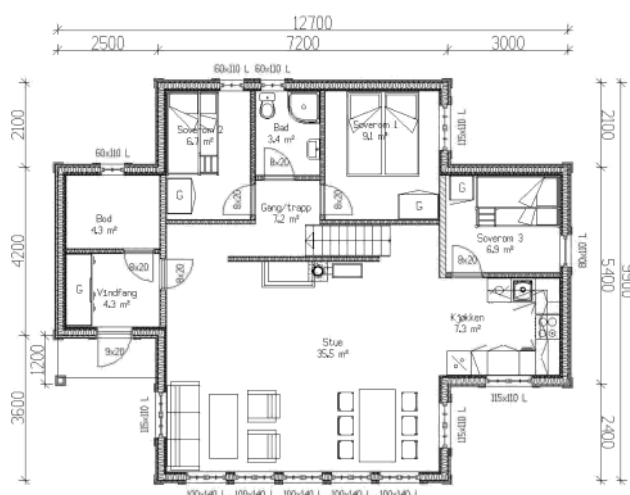

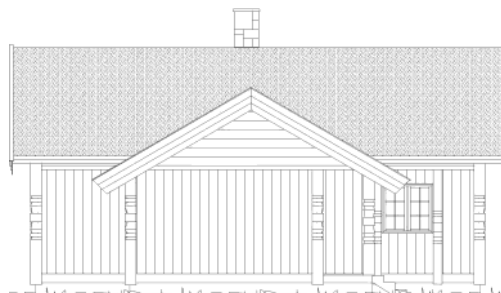

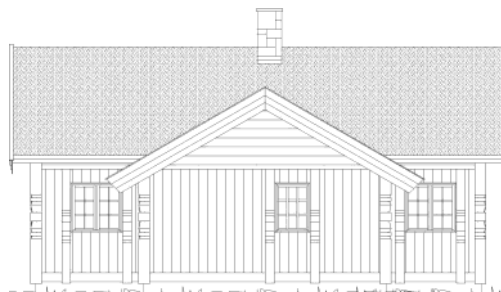

"Hersjø" fra brosjyren Buen Nøytral.

Denne er tegnet uten utskjæringer og med profilerte deler, men kan selvsagt også leveres i full Buen-design.

BYA: 101,0 kvm

BRA: 89,3 kvm + hems

*) Prisen gjelder for Nyseter med uinnredet hems.

Alle priser er i henhold til nye byggforskrifter (TEK 17).

Komplett byggesett omfatter alle nødvendige trematerialer for å oppføre snekkerferdige bygg med tomme rom.

I utvendig byggesett medfølger ikke:

- Gulvbord, innvendig tak- og veggpanel.
- Delevegger og innvendig spikerslag.
- Innerdører, listverk og foringer.

Prisene gjelder leveranser i henhold til medfølgende byggesettbeskrivelser.

Priseksempler

pr 25. oktober 2018

inkl. moms

Monteringsprisen forutsetter byggestrøm og at materialer ligger mindre enn 20 m fra grunnmur.

Prisene gjelder leveranser i henhold til medfølgende byggesettbeskrivelser.

Losji for snekkere, byggestrøm og evt. kranhjelp til dragere kommer i tillegg.
